### Net Interest Income

Net interest income was \$162.4 million for the second quarter of 2026, an increase of \$44.6 million, or 37.83%, from the first quarter of 2026, and an increase of \$50.8 million, or 45.52%, from the second quarter of 2025. The quarter-over-quarter and year-over-year increases in net interest income largely reflects the impact of operating as a combined company for approximately two and a half months following the Heritage acquisition. Interest income increased by \$53.0 million, or 35.56%, from the first quarter of 2026, while interest expense increased by \$8.4 million, or 27.00%, to \$39.7 million in the second quarter of 2026. The quarter-over-quarter increase in net interest income was primarily due to a 28 basis point increase in net interest margin and a \$3.67 billion increase in average interest-earning assets.

<sup>[1]</sup> Non-U.S. generally accepted accounting principles ("GAAP") financial measures. See GAAP to non-GAAP reconciliations of the measures are set forth at the last section of this press release.

Compared to the second quarter of 2025, the \$50.8 million increase in net interest income was primarily driven by a \$57.9 million increase in interest income driven by a \$4.01 billion increase in average interest-earning assets and a 34 basis point increase in the yield on earning assets. The increase in interest income was offset by a \$7.1 million increase in interest expense attributable to a \$2.83 billion increase in average interest-bearing deposits and customer repurchase agreements.

### **Net Interest Margin**

Our tax equivalent net interest margin was 3.72% for the second quarter of 2026, compared to 3.44% for the first quarter of 2026 and 3.31% for the second quarter of 2025. The 28 basis points increase in our net interest margin compared to the first quarter of 2026 was primarily attributable to a 28 basis points increase in our average interest-earning assets yield, which was primarily driven by a 21 basis points increase in our average loan yield and a 11 basis points increase in our average investment securities yield. The increase in average loan yields reflected the Company's acquisition of Heritage and the addition of higher-yielding acquired assets, including approximately \$86.1 million of average factored receivables during the quarter. Through the acquisition, the Company acquired CSNK Working Capital Finance Corp., doing business as Bay View Funding, a wholly owned subsidiary of the Bank that provides working capital factoring financing to businesses throughout the United States. During the quarter, the average yield on factored receivables was 18.04%. Cost of funds remained stable at 0.96% for the second quarter of 2026 compared to 0.97% in the first quarter of 2026, reflecting a 24 basis points decrease in the cost of FHLB borrowing, offset by a five basis point increase in our cost of deposits to 0.83%, from 0.78%.

Our tax equivalent net interest margin for the second quarter of 2026 increased by 41 basis points compared to the second quarter of 2025, reflecting a 34 basis point increase in the average interest-earning assets yield and a seven basis point decrease in cost of funds. The increase in earning assets yield was primarily due to a 31 basis point increase in average loan yields, reflecting the addition of higher-yielding acquired factored receivables portfolio acquired through the Heritage acquisition. Partially offsetting this increase was a lower yield on funds deposited at the Federal Reserve, resulting from the 75 basis points reduction in federal funds target rate by FOMC during the last four months of 2025. The average yield on investment securities increased by 12 basis points from the second quarter of 2025, despite the impact of the fair value hedges of our investment securities available-for-sale ("AFS"), which generated a negative carry during the second quarter of 2026 and reduced interest income by \$1.4 million compared to the positive carry recognized in the same quarter last year. Cost of funds decreased to 0.96% in the second quarter of 2026 from 1.03% in the second quarter of 2025. This decrease was driven by a 35 basis point reduction in cost of interest-bearing deposits and a 29 basis point decrease in cost of FHLB borrowing. Partially offsetting these lower funding costs, noninterest-bearing deposits declined as a percentage of average total deposits to 52.3% in the second quarter of 2026 from 59.7% in the second quarter of 2025, resulting in a less favorable deposit mix.

### **Earning Assets and Deposits**

The increases in average earning assets and average total deposits were primarily attributable to the Heritage acquisition. On average, earning assets increased by \$3.67 billion compared to the first quarter of 2026 and increased \$4.01 billion compared to the second quarter of 2025. The quarter-over-quarter increase in interest-earning assets was primarily attributable to a \$2.92 billion increase in average loans, a \$388.0 million increase in average interest-earning deposits at the Federal Reserve, and \$349.7 million increase in average investment securities. The year-over-year increase in interest-earning assets was primarily attributable to a \$3.19 billion increase in average loans, a \$423.5 million increase in average investment securities and a \$331.2 million increase in average interest-earning deposits at the Federal Reserve.

The average balance on noninterest-bearing deposits increased by \$1.23 billion, or 17.83%, from the first quarter of 2026 and by \$1.07 billion, or 15.20%, from the second quarter of 2025. The average balance on interest-bearing deposits and customer repurchase agreements increased by \$2.38 billion from the first quarter of 2026 and increased by \$2.83 billion from the second quarter of 2025. On average, noninterest-bearing deposits were 52.3% of total deposits for the second quarter of 2026, compared to 57.8% for the first quarter of 2026 and 59.7% for the second quarter of 2025.

Acquisition related expenses associated with the Heritage merger totaled \$31.4 million in the second quarter of 2026, compared to \$1.1 million for the first quarter of 2026. Excluding acquisition expense, noninterest expense increased \$23.5 million compared to the first quarter of 2026. This increase was primarily driven by a \$9.1 million increase in salaries and employee benefits, a \$3.8 million increase in provision for unfunded loan commitments attributable to day 1 provision from the Heritage acquisition of \$4.25 million, and a \$2.7 million increase in amortization of intangible assets resulting from the core deposit intangibles associated with the acquisition, and \$1.8 million increase in computer software expense. Excluding acquisition expense and the provision for unfunded loan commitments, the increase in noninterest expense compared to the second quarter of 2025 was \$21.2 million.

As a percentage of average assets, noninterest expense was 2.31% for the second quarter of 2026, 1.58% for the first quarter of 2026, and 1.52% for the second quarter of 2025. The efficiency ratio was 63.75% for the second quarter of 2026, compared to 45.84% for the first quarter of 2026 and 45.55% for the second quarter of 2025. Excluding acquisition related expenses and the provision for unfunded loan commitments, the adjusted efficiency ratio<sup>[1]</sup> was 43.88% for the second quarter of 2026, compared to 44.61% for the first quarter of 2026 and 45.55% for the second quarter of 2025.

Our estimated annual effective tax rate can vary depending upon the level of tax-advantaged income from municipal securities and BOLI, as well as tax credit investments.

## **BALANCE SHEET HIGHLIGHTS**

### **Assets**

Total assets were \$21.18 billion at June 30, 2026, an increase of \$5.68 billion, or 36.60%, from \$15.51 billion at March 31, 2026. The increase was primarily attributable to a \$3.37 billion increase in total loans, \$839.1 million increase in investment securities and a \$596.0 million increase in interest-earning balances due from the Federal Reserve. The increases in total assets compared to prior periods primarily reflect the impact of the Heritage acquisition completed on April 17, 2026, partially offset by balance sheet optimization activities during the quarter.

Total assets increased by \$5.55 billion, or 35.52%, from \$15.63 billion at December 31, 2025. The increase in assets was primarily driven by an increase of \$3.32 billion, or 38.14%, in total loans, a \$722.8 million, or 14.59% increase in investment securities and a \$640.9 million, or 238.36%, increase in interest-earnings balances due from the Federal Reserve.

Total assets at June 30, 2026 increased by \$5.77 billion, or 37.42%, from \$15.41 billion at June 30, 2025. The increase in assets was primarily driven by an increase of \$3.66 billion, or 43.77%, in total loans, an increase of \$862.8 million, or 17.92%, in investment securities, and an increase of \$366.2 million, or 67.37%, in interest-earning balances due from the Federal Reserve.

### **Investment Securities**

Total investment securities were \$5.68 billion at June 30, 2026, an increase of \$839.1 million, or 17.35%, from \$4.84 billion at March 31, 2026, an increase of \$722.8 million, or 14.59%, from December 31, 2025, and an increase of \$862.8 million, or 17.92%, from \$4.81 billion at June 30, 2025. The increase in investment securities in the second quarter of 2026 compared to prior quarters was primarily the result of approximately \$519.0 million of investment securities acquired and retained from the Heritage acquisition as well as approximately \$500.0 million of purchases of AFS securities during the quarter. As part of the Company's balance sheet management strategy to improve portfolio yields and reduce asset duration, approximately \$490 million of securities acquired from Heritage were sold at close of the merger and reinvested in lower duration securities at an average yield of approximately 4.70%.

At June 30, 2026, investment securities held-to-maturity ("HTM") totaled \$2.22 billion, a decrease of \$29.5 million, or 1.31%, from March 31, 2026 and a decrease of \$108.7 million, or 4.67%, from June 30, 2025.

### **Loans**

Total loans and leases, at amortized cost, of \$12.02 billion at June 30, 2026 increased by \$3.37 billion, or 39.03%, from \$8.64 billion at March 31, 2026. The quarter-over-quarter increase was primarily due to increases of \$2.35 billion in commercial real estate loans, \$526.6 million in commercial and industrial loans, \$166.3 million in consumer loans, \$150.7 million in construction loans, \$149.9 million in Small Business Administration ("SBA") loans, and \$63.1 million in single-family residential ("SFR") mortgage loans, partially offset by decreases of \$33.8 million in dairy & livestock and agribusiness loans, and \$1.4 million in municipal lease finance receivables. The increase in total loans and leases compared to prior quarters was primarily attributable to the Heritage acquisition, which added \$3.10 billion of loans held for investment recorded at fair value as of the acquisition date.

Total loans and leases, at amortized cost, increased by \$3.32 billion, or 38.14%, from December 31, 2025. These increases were partially offset by decreases of \$150.6 million in dairy & livestock and agribusiness loans associated with the seasonal increase that occurs every calendar year end, and \$3.5 million in municipal lease finance receivables loans.

Total loans and leases, at amortized cost, increased by \$3.66 billion, or 43.77%, from June 30, 2025. ### **Asset Quality**

During the second quarter of 2026, we experienced credit charge-offs of \$141,000 and total recoveries of \$4,000, resulting in net charge-offs of \$137,000, which compares to net recoveries of \$9,000 in the prior quarter. The allowance for credit losses ("ACL") totaled \$126.7 million at June 30, 2026, compared to \$80.2 million at March 31, 2026 and \$78.0 million at June 30, 2025. The ACL increased \$46.5 million in the second quarter of 2026, reflecting the initial ACL of \$46.6 million on the purchased credit deteriorated ("PCD") loans and purchased seasoned loans ("PSL") acquired from the Heritage acquisition. At June 30, 2026, the ACL as a percentage of total loans and leases outstanding was 1.05%. This compares to 0.93% at both March 31, 2026 and June 30, 2025.

The \$10.5 million increase in nonperforming loans from March 31, 2026 was primarily due to the addition of 12 nonperforming commercial and industrial loans totaling \$6.2 million, three nonperforming commercial real estate loans totaling \$4.3 million, and one nonperforming construction loan for \$685,000, offset by three commercial real estate nonaccrual loan payoffs totaling \$1.5 million.

Classified loans are loans that are graded “substandard” or worse. Classified loans increased \$26.7 million quarter-over-quarter, primarily driven by \$29.1 million of classified loans acquired in the Heritage merger.

#### Deposits & Customer Repurchase Agreements

Deposits of \$16.29 billion and customer repurchase agreements of \$563.4 million totaled \$16.85 billion at June 30, 2026, compared to \$12.44 billion at March 31, 2026, \$12.56 billion at December 31, 2025, and \$12.39 billion at June 30, 2025. Deposits and customer repurchase agreements increased \$4.41 billion, or 35.47%, from March 31, 2026, \$4.29 billion, or 34.15% from December 31, 2025, and \$4.46 billion, or 36.03%, from June 30, 2025. The increases primarily reflected \$1.2 billion of noninterest-bearing deposits and \$3.5 billion of interest-bearing deposits assumed in connection with the Heritage acquisition completed during the second quarter of 2026.

Noninterest-bearing deposits were \$8.61 billion at June 30, 2026, an increase of \$1.51 billion, or 21.22%, compared to \$7.10 billion at March 31, 2026. Noninterest-bearing deposits increased \$1.81 billion, or 26.56%, from \$6.80 billion at December 31, 2025 and \$1.36 billion, or 18.76%, from \$7.25 billion at June 30, 2025. At June 30, 2026, noninterest-bearing

deposits were 52.84% of total deposits, compared to 59.44% at March 31, 2026, 56.33% at December 31, 2025, and 60.47% at June 30, 2025. The decrease in noninterest-bearing deposits as a percentage of total deposits primarily reflected the mix of deposits assumed in the Heritage acquisition, which included a higher proportion of interest-bearing deposits.

### Borrowings

As of June 30, 2026, total borrowings were \$539.0 million, consisting of \$500.0 million of Federal Home Loan Bank ("FHLB") advances and \$39.0 million of subordinated debt assumed in the Heritage acquisition, compared to \$500.0 million of FHLB advances at both March 31, 2026 and December 31, 2025. ## GAAP TO NON-GAAP RECONCILIATIONS

The Company uses certain non-GAAP financial measures to provide supplemental information regarding the Company's operational performance and to enhance investors' overall understanding of such financial performance. However, these non-GAAP financial measures are supplemental and are not a substitute for an analysis based on GAAP measures. As other companies may use different calculations for these adjusted measures, this presentation may not be comparable to other similarly titled adjusted measures reported by other companies.

### Pretax Pre-Provision Income (Non-GAAP)

## Adjusted Efficiency Ratio (Non-GAAP)

Adjusted efficiency ratio is a non-GAAP financial measure derived from GAAP-based amounts. This figure represents the ratio of noninterest expense, less acquisition related expense and provision for unfunded loan commitments, where applicable, to the sum of net interest income before provision for credit losses and total noninterest income. Management believes that the exclusion of such items from this financial measure provides useful information to gain an understanding of the operating results of our core business.
